(By United Press)

Dublin, Aug. 16—An uncompromising stand for absolute Irish independence was taken today by President DeValera in his address to the Sinn Fein parliament. He told delegates, the men released from jail and internment camps, to decide on acceptance or rejection of the British peace proposal that Ireland must be recognized as a republic before it would deal with any foreign country—and presumed any foreign country includes England. He denounced as unjust the British proposal of offering Ireland a dominion status within the empire. Quoting Lloyd George and Woodrow Wilson regarding rights of small nations, DeValera asserted the Sinn Fein intend, if necessary, to die for these principles.

The members of the parliament signed an oath of allegiance "to a free Irish state." Afterward the sitting adjourned until tomorrow, when there will be another open session followed by a secret one Thursday at which a decision on the peace proposal will be reached.

Members of parliament met in the mansion house with a cordon of troops of the Irish republican army around it.

An immense throng was gathered in the street leading to the mansion house. People remained through the session—in silent and solemn thought. Men and women were kneeling and praying in the street.

British Soldiers Ordered to Ireland.

London, Aug. 16—All British soldiers on leave from Ireland have been ordered to return immediately, it was announced today.

No explanation was forthcoming from the war office but following on the heels of DeValera's speech to the Irish parliament insisting upon complete independence, it was taken as an indication that a possible break in the Irish truce was feared.

Interesting Marriage**Statistics From the****Census Returns**

(By United Press)

Washington, Aug. 16—"Insufferable lonesomeness" of the unmarried state now enfolds more than 1,600,000 women and men over forty-five years of age, it is shown in a report of the United States census bureau.

"Insufferable lonesomeness" was the term used by Dr. George T. Harding, father of President Harding, in explaining his marriage at 76 to Miss Alice Severns, 52.

More than 100,000 men of about Dr. Harding's age now are listed as bachelors, the office records show. A nearly equal number of women at 64 years of age or more, are also unmarried, and a still larger number of men and women of any age are without mates as a result of divorce or death. These figures are preliminary estimates of the 1920 census returns based on partial returns of the census and proportionate returns obtained in preceding census.

French-British**Settle Questions****Satisfactorily**

(By United Press)

London, Aug. 16—Questions menacing the solidity of the alliance between France and Great Britain have been satisfactorily settled, Lloyd George declared in commons today.

Reviewing the recent action of the supreme council, the British premier declared that he was gratified to be able to announce a settlement of the most troublesome questions. He characterized as a delusion the French belief that the appropriations of coal and iron mines in Silesia was essential to French security.

(By United Press)

Washington, Aug. 16—Federal taxes are reduced \$384,000,000 for 1922 and \$790,000,000 for 1923, Chairman Fordney of the house ways and means committee, declared today in formally reporting the new revenue bill to the house.

The insurgent republican movement in the house is strong enough to force a delay in repeal of the excess profits levy and reduction of the surtax on high incomes until January, 1922.

Consideration of the tax bill will be started in the house tomorrow and completed Saturday afternoon.

How to Tell When**Olives Are Poisonous**

(By United Press)

Philadelphia, Aug. 16—When opening a bottle of olives, if they give off a rancid, offensive odor, they should be thrown away, because they are poisonous, according to Dr. Randall C. Rosenberger, professor of hygiene and bacteriology at Jefferson College.

Dr. Rosenberger has been carrying on experiments to find out how to detect poisonous olives. Good olives have a pleasantly aromatic odor, he said. The poisonous olives smell a little stronger than Roquefort cheese, and the liquor is clouded.

The poison is known as bacillus botulinus. It is found more frequently in ripe olives than in green ones, probably because the ripe variety is in an early state of decay, Rosenberger said.

Dr. Rosenberger carried on extensive experiments with guinea pigs, white mice and rabbits.

MISS EDA C. O'NEILL.

(Copyright 1921 by United Press.)

New York, Aug. 16—Miss Eda Creat O'Neill, American writer who has been in Russia for several months with unusual opportunities for observing life in the soviet republic, has emerged just after the American relief commission is prepared to enter the country.

In three articles written for the United Press Miss O'Neill describes conditions as they now are in Russia. The first article herewith tells of the general Russian attitude toward the famine.

Reval, Russia, Aug. 16—The shadow of famine loomed large today in Russia. Every phase of life is beginning to reflect it. Where and how to obtain food is the thought uppermost in the minds of everyone.

Values at present are reckoned according to one standard—the amount of food a given article represents. The food situation which is due to failure of last year's crop, and has been growing more and more critical since February, is the biggest problem in Russian life even before the famine developed in the Volga region.

The re-establishment of commerce and legalizing trade in market and shops under the new regulations has bettered the situation somewhat.

The markets are the busiest places in Moscow and Petrograd. Thousands of people go there daily to buy and barter. The latter is more common because rubels are scarce and low in value. Peasants are as eager for city products and finery as city dwellers are for food.

At the market the city dwellers trade their cigarette lighters made at home after factory hours, or his wife's handkerchief she has just embroidered. Household effects and personal belongings are still in demand by a few city folks.

Boundary Dispute**Put Up to League**

(By United Press)

Geneva, Aug. 16—Chile has already launched her fight to prevent the September assembly of the League of Nations from undertaking to revise 1904 Antcon peace treaty between Bolivia and Chile.

Bolivia's request that the League take up this question was put on the agenda for the Second General Assembly of the League over the protest of the Chilean delegation. The latter challenged squarely the competency of the League to undertake the revision of such a treaty as that of 1904—a treaty which, according to the Chilean delegation has just protested to the secretariat of the League of Nations against the manner in which the question is inscribed on the agenda.

According to the latter, the assembly will be called upon to pass up the whole question in dispute.

**PROHIB. OFFICERS

GLERS' CRAFT**

(By United Press)

New York, Aug. 16—Whiskey smugglers attempting to enter the United States by land and sea, were matching wits with federal and state guards on the Atlantic coast and Canadian border today.

Raids, seizures and arrests marked today's engagement in the border battle between bootleggers and United States authorities near Detroit where the smugglers are trying to bring their liquor in from Canada.

The prohibition enforcement force took the offensive all along the line. More troops were put into action in some places to run down the small speedy power boats that come putting over from Canada with cargoes of nine per cent beer.

Prohibition enforcement authorities realize the hugeness of their task along the coast here, and are considering a request for loaning several destroyers from the navy. It is possible that the army may be asked to assist in the border guard.

Negroes Kidnap**Soldier's Wife**

(By United Press)

Anniston, Ala., Aug. 16—A posse headed by military and police authorities were searching for three negroes who last night kidnapped the young wife of Dall Stormer, of Birmingham, member of Company K, 4th Infantry, Alabama National Guard, in training at Camp McLehlan here.

According to the story told authorities by Stormer, he and his wife were riding about the city when three negroes jumped on his automobile and kidnapped Mrs. Stormer.

CHICAGO WOMAN**SUICIDES BECAUSE****THREATS IN LETTER****FROM EDITOR OF A NORTH DAKOTA
MAGAZINE—WON MANY
BEAUTY CONTESTS**

(By United Press)

Chicago, Aug. 16—Claims by friends of the beautiful Mrs. Mary Debrito that she was driven to end her life by alleged threats in a poison pen letter from a North Dakota magazine editor, were investigated by authorities today.

Mrs. Debrito read an article in a magazine published in North Dakota advocating tar and feathers for certain classes of persons, Mrs. Edward Weiler, at whose home the woman lived, told police of the incident.

"She wrote to the governor of North Dakota demanding that he suppress the magazine," Mrs. Weiler said. "In reply she received a note" from the executive saying he had forwarded the letter to the editor of the magazine.

"A few days later she received a letter from the editor saying that 'Since you have started this controversy I will finish it.'"

"Soon after an unkempt man confronted her and demanded the history of her life. He also called at our home continually for investigation, he said, for an insurance company."

Mrs. Debrito was almost in a state of nervous collapse since meeting the investigator, Mrs. Weiler said. She did not sleep and was unstrung. When Mrs. Weiler and her husband went to the bathroom today they found Mrs. Debrito lying in a tub completely immersed with water with a gas jet in her mouth.

Mrs. Debrito was a high salaried aid of the advertising department of a Chicago store. She won many beauty contests. She had married a Brazilian of a distinguished family, but they separated. Authorities believe she may have been an officer of these societies the magazine editor attacked.

**RAILROADS ARE
ESTABLISHING OPEN

OF RAILROAD LABOR
BOARD**

(United Press)

Chicago, Aug. 16—The United States railroad labor board today was understood to be probing charges that railroads were establishing the open shop plan thus evading jurisdiction of the board.

According to word received here from Marion, Ohio, the railroad service company has taken over the operation of the Erie railroad shops and are rehiring employees on the open shop basis.

Since the Railroad Service company is not a "common carrier" it was pointed out, it would not be subject to supervision by the railroad board. The Indiana Harbor & Belt railroad at Gibson, Indiana, is understood to have adopted the same plan.

Railroad board members threatened intervention if it is shown that the transportation act has been violated.

**All Railroads Contemplate Similar
Move.**

Chicago, Aug. 16—The critical situation which has existed for a year between railroad heads and their employees drew rapidly to a head today.

A decision within the next three weeks will testify whether the outcome of the negotiations will be a strike or peaceful settlement, it was forecast in both employers and employees circles here today.

A move by the railroads to place their shops in the hands of outside organizations so that they would not come under the jurisdiction of the railroad labor board, such as the step taken by the Erie, at Marion, Ohio, is in anticipation of a decision which the board handed down Wednesday. This decision will probably be on the petition of employers to make all shop employees' pay based on piece work instead of hourly rates as at present. The roads believe the board will deny this petition and will make preparations.

The United Press learned from authoritative sources that practically all large railroads of the country will make arrangements to place their shops in the hands of private interests, such as was done at Marion, in order to allow the establishment of pay based on a piece work basis and declaration of an open shop.

Arms Conference**Will Cost U. S. at****Least a Million**

(By United Press)

Washington, Aug. 16—The disarmament conference will cost the United States at least \$1,000,000, according to conservative official estimates here today. The \$200,000 appropriation requested by Under Secretary Fletcher is regarded as merely a start on the total bill which the United States will be required to foot after the last delegate has started home.

But even should the cost run far over the million dollar estimate, this would only be a fraction of the cost of one battleship, officials pointed out.

The decision of Premier Briand to attend in person will undoubtedly result in a similar decision by Lloyd George, officials here believed.

**PROHIB. OFFICERS
HOT AFTER WHISKEY
RUNNERS ON LAKES**

MAY ASK FOR LOAN OF DESTROY-
ERS TO HUNT DOWN SMUG-
GLERS' CRAFT

(By United Press)

New York, Aug. 16—Whiskey smugglers attempting to enter the United States by land and sea, were matching wits with federal and state guards on the Atlantic coast and Canadian border today.

Raids, seizures and arrests marked today's engagement in the border battle between bootleggers and United States authorities near Detroit where the smugglers are trying to bring their liquor in from Canada.

The prohibition enforcement force took the offensive all along the line. More troops were put into action in some places to run down the small speedy power boats that come puttering over from Canada with cargoes of nine per cent beer.

Prohibition enforcement authorities realize the hugeness of their task along the coast here, and are considering a request for loaning several destroyers from the navy. It is possible that the army may be asked to assist in the border guard.

**Negroes Kidnap
Soldier's Wife**

(By United Press)

Anniston, Ala., Aug. 16—A posse headed by military and police authorities were searching for three negroes who last night kidnapped the young wife of Dall Stormer, of Birmingham, member of Company K, 4th Infantry, Alabama National Guard, in training at Camp McAllister here.

According to the story told authorities by Stormer, he and his wife were riding about the city when three negroes jumped on his automobile and kidnapped Mrs. Stormer.

**Finding of Missing
Millionaire a Hoax**

(By United Press)

Des Moines, Aug. 16—The latest finding of Ambrose Small was proven a hoax today.

The legless cripple, whom Detectives Brophy and Harty claimed was Small, Toronto theatrical millionaire, who has been missing for two years, has been identified as John Daugherty, victim of a railroad accident.

**Favorably Report
Deficiency Bill**

(By United Press)

Washington, Aug. 16—The deficiency appropriation bill carrying \$48,500,000 for the United States shipping board and \$200,000 to defray the expenses of the disarmament conference was ordered favorably reported to the senate today by the appropriation committee.

**Exploding Oven
Injures Woman**

(By United Press)

Minneapolis, Aug. 16—Mrs. J. M. Breen was seriously injured early today when an oven in a lunch room exploded as she was lighting it.

Anti-Beer Bill Is Expedited

(By United Press)

Washington, Aug. 16—Expedition of the anti-beer bill was assured today when the house by a vote of 255 to 50 adopted a special rule making the proposal to send it to conference without a senate vote.

First Reunion of 88th Division
St. Paul, Aug. 16—Hundreds of northwest veterans who trained with the 88th division at Camp Dodge are expected to attend the first reunion of that division at Des Moines from Aug. 26 to 28.

Special low fares for veterans have been arranged by railroads. Des Moines is planning a big reception for the veterans. Plans are being made to entertain 10,000 men. A tent colony covering twenty acres will be laid out at the Fair Grounds to accommodate the ex-service men without charge during their stay.

MISS MARY BURDICK

Miss Mary Burdick, daughter of Representative and Mrs. Clark Burdick of Rhode Island, is popular in Washington society circles.

**CHICAGO WOMAN
SUICIDES BECAUSE
THREATS IN LETTER**

FROM EDITOR OF A NORTH DAKOTA
MAGAZINE—WON MANY
BEAUTY CONTESTS

(By United Press)

Chicago, Aug. 16—Claims by friends of the beautiful Mrs. Mary Debrito that she was driven to end her life by alleged threats in a poison pen letter from a North Dakota magazine editor, were investigated by authorities today.

Mrs. Debrito read an article in a magazine published in North Dakota advocating tar and feathers for certain classes of persons, Mrs. Edward Weiler, at whose home the woman lived, told police of the incident.

"She wrote to the governor of North Dakota demanding that he suppress the magazine," Mrs. Weiler said. "In reply she received a note from the executive saying he had forwarded the letter to the editor of the magazine."

"A few days later she received a letter from the editor saying that 'Since you have started this controversy I will finish it.'"

"Soon after an unkempt man confronted her and demanded the history of her life. He also called at our home continually for investigation, he said, for an insurance company."

Mrs. Debrito was almost in a state of nervous collapse since meeting the investigator, Mrs. Weiler said. She did not sleep and was unstrung. When Mrs. Weiler and her husband went to the bathroom today they found Mrs. Debrito lying in a tub completely immersed with water with a gas jet in her mouth.

Mrs. Debrito was a high salaried aid of the advertising department of a Chicago store. She won many beauty contests. She had married a Brazilian of a distinguished family, but they separated. Authorities believe she may have been an officer of these societies the magazine editor attacked.

**Report Railroad
Relief Bill Today**

(By United Press)

Washington, Aug. 16—The senate interstate commerce committee today ended the hearing on the administration bill to extend financial relief to railroads and began consideration of the measure with the announced intention of reporting it to the senate later in the day.

Mob Burns Negro's Body

(By United Press)

Coolidge, Texas, Aug. 16—The body of Alex Winn, a negro, was taken from the undertaking establishment early today by a mob and burned. Winn was hanged by a mob yesterday at Detura. He was accused of assault on a seven year old girl.

**RAILROADS ARE
ESTABLISHING OPEN
SHOP, CHARGED**

AND ARE EVADING SUPERVISION
OF RAILROAD LABOR
BOARD

(United Press)

Chicago, Aug. 16—The United States railroad labor board today was understood to be probing charges that railroads were establishing the open shop plan thus evading jurisdiction of the board.

According to word received here from Marion, Ohio, the railroad service company has taken over the operation of the Erie railroad shops and are rehiring employees on the open shop basis.

Since the Railroad Service company is not a "common carrier" it was pointed out, it would not be subject to supervision by the railroad board.

The Indiana Harbor & Belt railroad at Gibson, Indiana, is understood to have adopted the same plan.

Railroad board members threatened intervention if it is shown that the transportation act has been violated.

**All Railroads Contemplate Similar
Move.**

Chicago, Aug. 16—The critical situation which has existed for a year between railroad heads and their employees drew rapidly to a head today.

A decision within the next three weeks will testify whether the outcome of the negotiations will be a strike or peaceful settlement, it was forecast in both employers and employees circles here today.

A move by the railroads to place their shops in the hands of outside organizations so that they would not come under the jurisdiction of the railroad labor board, such as the step taken by the Erie, at Marion, Ohio, is in anticipation of a decision which the board handed down Wednesday. This decision will probably be on the petition of employers to make all shop employees' pay based on piece work instead of hourly rates as at present. The roads believe the board will deny this petition and will make preparations.

The United Press learned from authoritative sources that practically all large railroads of the country will make arrangements to place their shops in the hands of private interests, such as was done at Marion, in order to allow the establishment of pay based on a piece work basis and declaration of an open shop.

**Arms Conference
Will Cost U. S. at
Least a Million**

(By United Press)

Washington, Aug. 16—The disarmament conference will cost the United States at least \$1,000,000, according to conservative official estimates here today. The \$200,000 appropriation requested by Under Secretary Fletcher is regarded as merely a start on the total bill which the United States will be required to foot after the last delegate has started home.

But even should the cost run far over the million dollar estimate, this would only be a fraction of the cost of one battleship, officials pointed out.

The decision of Premier Briand to attend in person will undoubtedly result in a similar decision by Lloyd George, officials here believed.

**City Detectives Lose
Jobs in St. Paul**

(By United Press)

St. Paul, Aug. 16—One detective was dismissed today and five others suspended. Chief of Police Crepeau took this action following charges that the detectives were passing up moonshine parlors and disorderly houses. Charges were made that places on the west side were run wide open under the eyes of police.

Law Suit Over Cattle

Bismarck, N. D., Aug. 16—Between 200 and 300 head of cattle are involved in the case of the St. Paul Cattle Loan company vs. C. P. Burnstad of Logan county, which will be heard here today. U. S. District Judge Amidon presiding. The firm seeks to foreclose a chattel mortgage against Burnstad. The case was expedited because of the expense of keeping the cattle.

BRAINERD'S ODDEST STORIES TODAY

Said the philosopher of this "column": "Marriage is an institution that makes liars out of a lot of good men".

It happened out at Gull lake. Young Lenis Peterson of St. Paul, visiting there, saw a big pike in the lake. Grabbing a gaff hook he went after the fish and landed him.

Boon to the Armless.
An English machine for the use of armless men consists of a table under which are pegs worked by the toes. The pegs are connected with artificial "arms" above the table, which do almost everything that can be done by human arms. Thus the patient can use a spoon, knife and fork, drink from a cup, pick a cigarette and place it in his mouth, open a box of matches, strike a match and light the cigarette, typewrite, turn the leaves of a book, play checkers, wash and dry his face and neck, etc.

Little Money Saver Says:

If your linoleum is faded and worn you can easily and economically restore the original bright pattern with LIQUID GRANITE LINOLEUM VARNISH.

This durable varnish is not affected by either cold or hot water and with its wonderful wear resisting qualities will add years of service to your linoleum whether it is old or new.

Our telephone number is 57, just ask us to deliver a quart, use it, and it you are not satisfied with the results, the varnish will cost you nothing.

LAST NIGHT OF CARNIVAL

Tonight the last performance of the first annual Home Town Carnival and Little Shows combined will be given and a large crowd is expected at the carnival grounds.

One of the thrilling features of this last performance is to be a finish wrestling match between "Rough House" Marvin, self styled light heavy weight champion of the world, and Fred Gilmore, local wrestling and champion of Northern Minnesota. Many Brainerd sportsmen are expected to attend the match and as the two men are very near the same weight the bout should prove very interesting.

Another big feature of the closing night will be De Waldo's wonderful act embracing the star acts of a dozen performers.

The Filipinos will make their last appearance tonight and many Brainerdites should avail themselves of the opportunity of seeing and hearing them.

The W. C. T. U. will repeat their pleasing act tonight and those who saw it last week say it will draw a large crowd tonight.

St. Swithin Myth Disproved.

A record was kept from 1840 for twenty years for the purpose of testing the truth of the popular belief that if rain fell on St. Swithin's day it would rain for forty days after. The result of this test shows that the greatest number of rainy days had occurred in these two decades in years when St. Swithin's day was dry.

LAST NIGHT

OF CARNIVAL

Tonight the last performance of the first annual Home Town Carnival and Little Shows combined will be given and a large crowd is expected at the carnival grounds.

One of the thrilling features of this last performance is to be a finish wrestling match between "Rough House" Marvin, self styled light heavy weight champion of the world, and Fred Gilmore, local wrestling and champion of Northern Minnesota. Many Brainerd sportsmen are expected to attend the match and as the two men are very near the same weight the bout should prove very interesting.

Another big feature of the closing night will be De Waldo's wonderful act embracing the star acts of a dozen performers.

The Filipinos will make their last appearance tonight and many Brainerdites should avail themselves of the opportunity of seeing and hearing them.

The W. C. T. U. will repeat their pleasing act tonight and those who saw it last week say it will draw a large crowd tonight.

CITY COUNCIL REGULAR SESSION

Contract for Front Street Paving Entered into by the Council on Monday Evening

PINE STREET IS TO BE CURBED

Firemen's Relief Fund Received to be Partially Distributed—Other Matters Up

At the regular council meeting on Monday evening all were present except Aldermen Cordes and Koop.

Sewer Wanted

Dr. A. K. Cohen asked for a sewer in block 194, explained the unusual conditions there and wanted to know what could be done. The matter was left with Alderman Michael to ascertain the finances.

Inspection Work

Inspection of Seventh and Laurel streets was left with the city engineer.

Drinking Fountains

Drinking fountains were discussed. It was reported that the water and light board had instructed Secretary McKay to order three drinking fountains, one for 6th and Front, one in city hall corridor, and one at 7th and Laurel.

Arc Light

Application had been made for an arc light on Juniper and Bluff. The committee in charge was given further time to report.

Police Alarm

The committee on police alarms reported. On motion of Aldermen Lyons and Quastrom, carried, the Northwestern Bell telephone company was asked to install two police alarms at locations subject to the mayor's approval.

Sawdust Nuisance

City Attorney Fullerton said the sawdust nuisance had been taken up with the state fire marshal.

Sidewalks

The resolution on sidewalks was passed, all voting aye.

Dairy Inspector

On motion of Aldermen Michael and Anderson, carried, the salary of the city dairy inspector was set at \$50 a month.

Broken Walk

On motion of Aldermen Anderson and Bukowski, carried, the broken sidewalk on South Fifth street was referred to the city engineer and attorney.

Paving Levy

Alderman Michael called attention to a levy made for paving Fifth street but nothing had been done. Some levy was made as early as in 1913. On motion of Aldermen Michael and Anderson, carried, it was referred to the city attorney, the assumption being the levy should either be refunded or credited to the Front street paving.

Poor Relief

The poor relief committee brought up various city charges and the amount of aid that should be given.

Trackage Property

The city may buy trackage property near Laurel and Bluff, having received an offer from S. G. Palmer of Minneapolis. On motion of Aldermen Anderson and Holmstrom, carried, it was moved that the city purchase the site with the water and light board, each paying half.

Firemen's Relief Fund

The city clerk announced the Firemen's Relief Fund of \$1189.11 had been received. On motion of Aldermen Lyons and Bukowski, carried, the relief fund is to be partially distributed, \$75 to each company.

Jail Basement

The jail basement with certain alterations may be given over to water and light board use.

Sewer

Alderman Anderson brought up the sewer on 13th and Norwood streets and that something should be done. Alderman Michael said the city should stand only one-third of the expense. It was left until the next meeting to sound out the people and the city engineer is to get estimates.

Front Street Paving

The status of Front street paving was discussed.

Hose House Lease

On motion of Aldermen Michael and Lyons, carried, the old hose house lease was ordered surrendered.

Paving Contract

On motion of Aldermen Michael and Lyons, the contract for paving Front street was entered into.

On motion of Aldermen Michael and Quastrom, carried, a milk tester is to be bought for the dairy inspector.

The city engineer submitted a final

settlement of the county on the Oak street paving.

On motion of Aldermen Michael and Quastrom, carried, Seventh and Laurel street paving was accepted.

On motion of Aldermen Anderson and Quastrom, carried, the city engineer is to advertise for bids for curbing Pine street from 11th to 17th streets.

The coal bid of Turcotte Brothers, on motion of Aldermen Anderson and Holmstrom, was referred to the purchasing committee.

CHILD WELFARE REPORT

Child Welfare Board Endeavors to Secure Proper Settlements for All Un-married Mothers

The actual work of the Child Welfare Board in the county was interrupted somewhat during the month of June and July by attendance at the National Conference of Social Work held in Milwaukee, Wisconsin, and also by vacations. The conference, in spite of the heat, was interesting and some helpful suggestions were gleaned.

At present there are twenty-eight active cases on hand. The secretary worked intensively with sixteen of these, nine of which developed during the two months. Several old cases were closed as the families moved out of the county or had arrived at the point where no further assistance seemed necessary.

Cases held over from the May court were finally disposed of, and in every instance the Child Welfare Board endeavored to secure, as far as possible, proper settlements for all un-married mothers.

Two investigations were made for placements, one for the return of a child from Faribault and several for other agencies. Word was received that Faribault could receive two children from Crow Wing county. Since the county has a waiting list of children to enter the school for the mentally defective, two children will be taken down in the near future. A petition was filed in the probate court for a hearing concerning the commitment of another defective child. It is well to have such cases upon the waiting list as early as possible.

A number of supervisory calls were made upon children who are on probation and the report sent to the State Board of Control. In one instance a position was indirectly secured for one of the older girls under supervision in a hospital in another county, and another who has been in a working home was returned to her parents after some necessary adjustments had been made. The Child Welfare Board prefer to do preventive work and are striving in that direction.

There are several cases pending involving, among other things, charges of neglect, improper guardianship, failure to meet paternity obligations and dependency. The latter will involve a thorough investigation in another county.

Plans are being made to organize Camp Fire Groups in the rural communities using the schools as a nucleus and it is hoped to secure free traveling libraries for the county. The Child Welfare Board will have an exhibit at the county fair this year. A total of 248 calls were made and over fifty letters written.

The office moved the first part of July into the new court house and the telephone number is 145-W.

Potter-Bourquin

The wedding of Leona Ellen Potter and George S. Bourquin took place at the home of the bride Saturday afternoon at 2:30 o'clock. Rev. W. J. Lowrie performed the ceremony in the presence of a number of friends and relatives.

The bride is the daughter of Mr. and Mrs. R. M. Potter. The groom is the son of Mr. and Mrs. Samuel Bourquin of South Fifth street. Both the young people are well known and their friends wish them the best there is in the wedded life.

Miss Maud Potter was bridesmaid and Roy Bourquin best man. After the service a wedding lunch was served. The young people are planning on a wedding trip to the west shortly and upon their return will be at home in this city.

AITKIN AUTO MEN

LOCATE ON LAKE

Julius Johnson and Roland McGwin who have been with the Ames Motor Car Co., and Arthur McGwin are leaving to go into business at Midland, on Mille Lacs lake.

They have leased the Mark town-site for a term of years and will at once put in a garage 40x60 feet at the corner where the Brainerd road reaches the lake. A livery and truck transportation will be put on.

The wooded tract will be made an auto camp and picnic ground and in time for next season, a bath house and a number of cottages will be built for the convenience of the public. The location promises to be a good one, and Midland is in luck to get men so well qualified to handle the undertaking.

Thorild Peterson, who was with the Ames Motor Car Co. last season is back in the office for the summer in Mr. Johnson's place.—Aitkin Independent-Age.

Comb and Brush

A mighty good suggestion. The old comb and brush were good quality and they have lasted a long time, they have given all the service that could be expected. It is time now to consider them unclean and suitable for change. Let us sell you a good comb or brush or both in a size, character, color or style that will please you best. We have a big assortment and you will be pleased with each offering.

In Earlier Days

In former times, when the town butcher or farmer himself dressed and cured the meat for the community, he could not always tell how it would turn out.

His methods were crude; partly traditional, partly guesswork. His tests were few and inconclusive.

Meat packing of today, as carried on by Swift & Company, has changed all that. It is scientific. Nothing is left to chance; nothing taken for granted.

The most painstaking care and attention are given to every step. Processes are worked out on a large scale with minute exactness. Methods are continually revised and improved. Cleanliness is insisted upon. Drastic, incessant inspections are the order of the day.

Swift products are uniform, graded according to quality.

Take bacon, for instance.

Swift & Company set out years ago to make a delicious, savory bacon which should be uniformly excellent.

The result is Swift's Premium Bacon, always the same, always famously good. Today this bacon, wrapped, sealed and branded, has circled the world.

Swift & Company's system of distribution carries it to places which the "town butcher" or the farmer could not reach.

CITY COUNCIL REGULAR SESSION

Contract for Front Street Paving Entered into by the Council on Monday Evening

PINE STREET IS TO BE CURBED

Firemen's Relief Fund Received to be Partially Distributed—Other Matters Up

At the regular council meeting on Monday evening all were present except Aldermen Cordes and Koop.

Sewer Wanted

Dr. A. K. Cohen asked for a sewer in block 194, explained the unusual conditions there and wanted to know what could be done. The matter was left with Alderman Michael to ascertain the finances.

Inspection Work

Inspection of Seventh and Laurel streets was left with the city engineer.

Drinking Fountains

Drinking fountains were discussed. It was reported that the water and light board had instructed Secretary McKay to order three drinking fountains, one for 6th and Front, one in city hall corridor, and one at 7th and Laurel.

Are Light

Application had been made for an arc light on Juniper and Bluff. The committee in charge was given further time to report.

Police Alarm

The committee on police alarms reported. On motion of Aldermen Lyons and Quastrom, carried, the Northwestern Bell telephone company was asked to install two police alarms at locations subject to the mayor's approval.

Sawdust Nuisance

City Attorney Fullerton said the sawdust nuisance had been taken up with the state fire marshal.

Sidewalks

The resolution on sidewalks was passed, all voting aye.

Dairy Inspector

On motion of Aldermen Michael and Anderson, carried, the salary of the city dairy inspector was set at \$50 a month.

Broken Walk

On motion of Aldermen Anderson and Bukowski, carried, the broken sidewalk on South Fifth street was referred to the city engineer and attorney.

Paving Levy

Alderman Michael called attention to a levy made for paving Fifth street, but nothing had been done. Some levy was made as early as in 1913. On motion of Aldermen Michael and Anderson, carried, it was referred to the city attorney, the assumption being the levy should either be refunded or credited to the front street paving.

Poor Relief

The poor relief committee brought up various city charges and the amount of aid that should be given.

Trackage Property

The city may buy trackage property near Laurel and Bluff, having received an offer from S. G. Palmer of Minneapolis. On motion of Aldermen Anderson and Holmstrom, carried, it was moved that the city purchase the site with the water and light board, each paying half.

Firemen's Relief Fund

The city clerk announced the Firemen's Relief Fund of \$1189.11 had been received. On motion of Aldermen Lyons and Bukowski, carried, the relief fund is to be partially distributed, \$75 to each company.

Jail Basement

The jail basement with certain alterations may be given over to water and light board use.

Sewer

Alderman Anderson brought up the sewer on 13th and Norwood streets and that something should be done. Alderman Michael said the city should stand only one-third of the expense. It was left until the next meeting to sound out the people and the city engineer is to get estimates.

Front Street Paving

The status of front street paving was discussed.

Hose House Lease

On motion of Aldermen Michael and Lyons, carried, the old hose house lease was ordered surrendered.

Paving Contract

On motion of Aldermen Michael and Lyons, the contract for paving front street was entered into.

On motion of Aldermen Michael and Quastrom, carried, a milk tester is to be bought for the dairy inspector.

The city engineer submitted a final

settlement of the county on the Oak street paving.

On motion of Aldermen Michael and Quastrom, carried, Seventh and Laurel street paving was accepted.

On motion of Aldermen Anderson and Quastrom, carried, the city engineer is to advertise for bids for curbing Pine street from 11th to 17th streets.

The coal bid of Turcotte Brothers, on motion of Aldermen Anderson and Holmstrom, was referred to the purchasing committee.

CHILD WELFARE REPORT

Child Welfare Board Endeavors to Secure Proper Settlements for All Un-married Mothers

The actual work of the Child Welfare Board in the county was interrupted somewhat during the month of June and July by attendance at the National Conference of Social Work held in Milwaukee, Wisconsin, and also by vacations. The conference, in spite of the heat, was interesting and some helpful suggestions were gleaned.

At present there are twenty-eight active cases on hand. The secretary worked intensively with sixteen of these, nine of which developed during the two months. Several old cases were closed as the families moved out of the county or had arrived at the point where no further assistance seemed necessary.

Cases held over from the May court were finally disposed of, and in every instance the Child Welfare Board endeavored to secure, as far as possible, proper settlements for all un-married mothers.

Two investigations were made for placements, one for the return of a child from Faribault and several for other agencies. Word was received that Faribault could receive two children from Crow Wing county. Since the county has a waiting list of children to enter the school for the mentally defective, two children will be taken down in the near future. A petition was filed in the probate court for a hearing concerning the commitment of another defective child. It is well to have such cases upon the waiting list as early as possible.

A number of supervisory calls were made upon children who are on probation and the report sent to the State Board of Control. In one instance a position was indirectly secured for one of the older girls under supervision in a hospital in another county, and another who has been in a working home was returned to her parents after some necessary adjustments had been made. The Child Welfare Board prefer to do preventive work and are striving in that direction.

There are several cases pending involving, among other things, charges of neglect, improper guardianship, failure to meet paternity obligations and dependency. The latter will involve a thorough investigation in another county.

Plans are being made to organize Camp Fire Groups in the rural communities using the schools as a nucleus and it is hoped to secure free traveling libraries for the county. The Child Welfare Board will have an exhibit at the county fair this year. A total of 248 calls were made and over fifty letters written.

The office moved the first part of July into the new court house and the telephone number is 145-W.

Potter-Bourquin

The wedding of Leona Ellen Potter and George S. Bourquin took place at the home of the bride Saturday afternoon at 2:30 o'clock. Rev. W. J. Lowrie performed the ceremony in the presence of a number of friends and relatives.

The bride is the daughter of Mr. and Mrs. R. M. Potter. The groom is the son of Mr. and Mrs. Samuel Bourquin of South Fifth street. Both the young people are well known and their friends wish them the best where is in the wedded life.

Miss Maud Potter was bridesmaid and Roy Bourquin best man. After the service a wedding lunch was served. The young people are planning on a wedding trip to the west shortly and upon their return will be at home in this city.

LOWER DISCOUNT RATE.

An important contribution to the improvement of business since the incoming of the Harding administration has been the steady lowering of the discount rate by Federal Reserve Banks. The whole purpose of these reductions, with which the administration has been unusually sympathetic, is to make it easier for the business man, the manufacturer, the shipper, the farmer, the investor, to get money, and thereby furnish a natural, legitimate stimulus to business. It is simply reversing the process that took place when the country was on a spending spree and money was being prodigally borrowed for speculative and non-productive purposes. In order to stop that orgy the discount rate was advanced. In other words the cost of hiring capital was arbitrarily raised by the banks having the capital, which at that time was good economics. Now the situation is reversed. Banks have capital piled up and idle. The lowering of the rate induces borrowing, and starts again the turning over of capital. The crisis has passed and we are now on the road to better times.

LOWER RAILROAD RATES PREDICTED.

At last there appears to be some prospect ahead of securing lower passenger and freight rates on the railroads. St. Paul and Minneapolis officials of Northwest railroads, according to the city papers, express themselves as confident that lower passenger rates, approximating the pre-war 3-cents a mile rate, will be announced soon. It is said also that such a reduction is now under consideration by the Interstate Commerce Commission and early action by the Federal body is expected. The attitude of the Commission on the railroad rate question indicates, it is claimed, that passenger rates will be materially reduced early this fall.

Railroad officials are also of the opinion that while reductions of rates on certain freight commodities are expected, the first sweeping cut undoubtedly will be made in passenger tariffs. It appears to be the general opinion, however, that no reduction on freight rates for coal can be expected before spring, at least.

CIVIL SERVICE RETRENCHMENT.

The National Republican says that approximately 150,000 government employees in Washington and throughout the country are slated to be dismissed as rapidly as possible so there may be a speedy return to pre-war employment by the government. It is evidently the policy of the administration to strive for the pre-war allotment of clerks even before the reorganization program now being worked out is put in operation. It is in furtherance of the general economy policy.

The employees to be dropped are for the most part in the civil service. The total number of civil service employees is around 450,000 now, whereas before the war the number was 300,000.

The first step in retrenchment with regards to discharge of clerks came on July 1, but it appeared last week, when 4,000 more employees were dropped, that the process is far too slow. In consequence, a policy was adopted to get back to the pre-war level by Dec. 1, if possible.

MINNESOTA GETS IMMIGRANTS

The annual report of the Great Northern Railway company, which has just been issued to the stockholders, indicates that Minnesota has attracted the interest of homeseekers to a much greater extent during the last three years than other Northwestern states. During the year 1920 there were 1,223 cars of immigrant movables handled to Minnesota, as compared with 670 for 1919. The 1920 figures for other states served by the Great Northern show that ninety-one cars were handled to North Dakota, thirty-nine to Montana, thirty-three to Washington, nine to Oregon, and four to Idaho, a total of 1,399 cars during the period.

ROTARY AND THE BOYS

The recent invitation of the Rotary club, appearing in the Dispatch, which invited the boys of the city to come and play with them, has caused not a little comment. It is unusual for men to thus accommodate themselves to boys' pleasures.

No one feature of work engaged in by the Rotary clubs of the country is featured stronger than their work with the boys. Rotarians pride themselves upon the help they give the boys.

The local Rotary club takes the picnic plan to make the acquaintance of the boys of Brainerd. The entire club, composed of business and professional men, will "personally conduct" the picnic. They will go out with the boys and show them their interest in them first hand.

Here is wishing every success to the Rotarians in their adventure for too much cannot be done for the boys of Brainerd. The very fact that they will give of their time to get in personal contact with the boys cannot but result in helpfulness for the boys.

ECONOMIC CONDITIONS.

During the month of July business reaction in basic lines of industry still was reflected in volume of business, extent of unemployment, and depression of production, according to the monthly review of general economic conditions issued on Monday from Washington by the Federal Reserve board.

Mid-summer retail business, the board asserted, has been in some respects better than usual, while the outlook for a satisfactory autumn business in several lines was declared to be decidedly encouraging. Continuing prospects of excellent good crops was considered the most hopeful feature in the general outlook.

BUILDING UP EXPORT TRADE

The government is pursuing several plans in building up export trade—permitting combinations for export sales, sending trade representatives to all the principal nations, and maintaining a merchant marine which will be an agency for the establishment of regular trade routes as well as extending the opportunity for shipment of American goods to markets not hitherto reached. Every dollar's worth of American goods shipped abroad means a dollar to be expended for the payment of American wages or the purchase of American raw materials.

THEY NEED THE EDUCATION.

"By all means," says the Biwabik Times, "let's have a convention of Southern Minnesota residents here in Northern Minnesota—not one but several of them. Nothing will quicker dispel the ingrown grouch developed by tonnage taxers and other calamity howlers and work for the betterment of the entire state." The Times evidently thinks they need the education.

More than 200 farms on government reclaimed land will be opened to entry by former service men next month. The farms are located on the North Platte irrigation project, Wyoming, and will be opened for entry Sept. 9, while 57 others on the Shoshone project will be opened one week later.

Last year the farmer was not materially assisted by his wheat sales as expected because of the high cost of production. This year it is different. As a rule the farmer is making a fair profit at the prevailing price and is either applying it to pay off debts or to build up a bank balance in event he is out of debt.

The Minnesota Farm Bureau Federation has begun a state-wide survey to determine the exact effect of present economic conditions on the state's normal agricultural development. The various county agents throughout the state have been requested to gather the information desired.

There is a friendly race on between Minnesota postoffices and Michigan postoffices to determine which can sell the largest number of savings stamps and certificates per capita between August 1 and November 30. Past records give Minnesota the lead by a considerable margin.

A bill authorizing the payment of \$100 from the tribal funds to each of the Chippewa Indians in Northern Minnesota has been favorably reported to the House by the Indian Affairs committee. Under the bill 12,273 Indians would receive relief, making the total amount \$1,227,300.

Secretary of State Hughes, it is announced, has been designated by the president to head the American delegation at the disarmament conference, and to arrange all remaining

details of the meeting. Which will be very satisfactory indeed, to the American people.

Not one of the big powers that were allied in the world war—Great Britain, France, Italy and Japan—seems inclined to take any step that will be objectionable to your Uncle Samuel. And this country is not a member of the league of nations, nor is it likely to be.

State legislation converting more than \$375,000,000 to the aid of world war veterans has been passed or is waiting popular referendum, the Bank of America announced in New York at the conclusion of a nation-wide survey of the bonus situation.

All the news that is coming out of Washington these days in regard to the business of the government is constructive and re-assuring. Everybody with an open mind and a clear eye knows that the forces of order and progress are functioning.

It is said that W. J. Bryan is figuring on his chances in 1924. No objections to Mr. Bryan—or Mr. Wilson, or the inimitable "Jimmy" Cox for that matter—leading the Democratic party, the president will come from the Republicans.

There is but a small crumb of comfort in the announcement from Washington of a decrease of \$206,000,000 in the public debt during July. A balance of \$23,771,000,000 remained July 31.

Perhaps if the courts would compel the applicants for divorce to tell whom they expect or hope to marry—there might be some interesting disclosures, at least.

Paul H. Kirk, the state statistician at Fergus Falls, says the extreme heat and dry weather during July cut down the wheat crop prospects in Minnesota 22 points.

If Japan studies the immigrants who are coming over now, it's really no wonder she can't understand why her people are kept out.

We are firmly of the opinion that the best way to "elevate" the movies is to begin with the audiences.

The Lenin-Trotsky regime is again reported in desperate straits, but that seems to be its normal condition.

AMUSEMENTS

At the Lyceum Theatre

As invigorating as a vacation in the open is the Vitagraph special visualization of James Oliver Curwood's famous story, "God's Country and the Woman," which is to be shown at the Lyceum theatre for the last time tonight. The noted author has attracted hundreds of thousands of readers by his fascinating descriptions of the timber lands of the North and the human dramas which are played against this wonderful background.

The Vitagraph production has transferred the writer's charm of portrayal to the screen without losing any of its vigor or beauty. Forests of giant trees, scattered lonely settlements, rude cabins on the shores of thickly wooded lakes, untracked mountains—this is "God's country" as shown by Curwood, a place where the refinements of civilization are passed by but the big ideals and the simple passions of honest men and women hold sway.

William Duncan is featured at the head of the strong cast.

At the New Park

Ethel Clayton scored a triumph as an emotional actress in "A City Sparrow," her new starring vehicle which had its initial presentation at the New Park theatre last night. The picture, which is based on a story by Kate Jordan, is a love drama filled with genuine heart throbs, and the ideal vehicle for the popular star.

It tells the story of a city vaudeville dancer who, after an accident, is informed by her doctor that she can never have any children of her own. She goes to the country to recuperate, and there she accepts the proposal of David Muir.

As the marriage draws near, however, she notices his ardent love for children, and fearing that she cannot make him happy as a wife, she leaves for the city. David overtakes her and when he learns the truth, they come to a felicitous understanding.

Clyde Fillmore artistically plays the role of David Muir, Walter Hiers does excellent work, and such players as William Boyd, Rose Cade, Robert Brower, Lillian Leighton, Bartine Burkett and Sylvia Ashton round out the cast.

LOWER DISCOUNT RATE.

An important contribution to the improvement of business since the coming of the Harding administration has been the steady lowering of the discount rate by Federal Reserve Banks. The whole purpose of these reductions, with which the administration has been unusually sympathetic, is to make it easier for the business man, the manufacturer, the shipper, the farmer, the investor, to get money, and thereby furnish a natural, legitimate stimulus to business. It is simply reversing the process that took place when the country was on a spending spree and money was being prodigally borrowed for speculative and non-productive purposes. In order to stop that orgy the discount rate was advanced. In other words the cost of hiring capital was arbitrarily raised by the banks having the capital, which at that time was good economics. Now the situation is reversed. Banks have capital piled up and idle. The lowering of the rate induces borrowing, and starts again the turning over of capital. The crisis has passed and we are now on the road to better times.

LOWER RAILROAD RATES PREDICTED.

At last there appears to be some prospect ahead of securing lower passenger and freight rates on the railroads. St. Paul and Minneapolis officials of Northwest railroads, according to the city papers, express themselves as confident that lower passenger rates, approximating the pre-war 3-cents a mile rate, will be announced soon. It is said also that such a reduction is now under consideration by the Interstate Commerce Commission and early action by the Federal body is expected. The attitude of the Commission on the railroad rate question indicates, it is claimed, that passenger rates will be materially reduced early this fall.

Railroad officials are also of the opinion that while reductions of rates on certain freight commodities are expected, the first sweeping cut undoubtedly will be made in passenger tariffs. It appears to be the general opinion, however, that no reduction on freight rates for coal can be expected before spring, at least.

CIVIL SERVICE RETRENCHMENT.

The National Republican says that approximately 150,000 government employees in Washington and throughout the country are slated to be dismissed as rapidly as possible so there may be a speedy return to pre-war employment by the government. It is evidently the policy of the administration to strive for the pre-war allotment of clerks even before the reorganization program now being worked out is put in operation. It is in furtherance of the general economy policy.

The employees to be dropped are for the most part in the civil service. The total number of civil service employees is around 450,000 now, whereas before the war the number was 300,000.

The first step in retrenchment with regards to discharge of clerks came on July 1, but it appeared last week, when 4,000 more employees were dropped, that the process is far too slow. In consequence, a policy was adopted to get back to the pre-war level by Dec. 1, if possible.

MINNESOTA GETS IMMIGRANTS

The annual report of the Great Northern Railway company, which has just been issued to the stockholders, indicates that Minnesota has attracted the interest of homeseekers to a much greater extent during the last three years than other Northwestern states. During the year 1920 there were 1,223 cars of immigrant movables handled to Minnesota, as compared with 670 for 1919. The 1920 figures for other states served by the Great Northern show that ninety-one cars were handled to North Dakota, thirty-nine to Montana, thirty-three to Washington, nine to Oregon, and four to Idaho, a total of 1,399 cars during the period.

ROTARY AND THE BOYS

The recent invitation of the Rotary club, appearing in the Dispatch, which invited the boys of the city to come and play with them, has caused not a little comment. It is unusual for men to thus accommodate themselves to boys' pleasures.

No one feature of work engaged in by the Rotary clubs of the country is featured stronger than their work with the boys. Rotarians pride themselves upon the help they give the boys.

The local Rotary club takes the picnic plan to make the acquaintance of the boys of Brainerd. The entire club, composed of business and professional men, will "personally conduct" the picnic. They will go out with the boys and show them their interest in them first hand.

Here is wishing every success to the Rotarians in their adventure for too much cannot be done for the boys of Brainerd. The very fact that they will give of their time to get in personal contact with the boys cannot but result in helpfulness for the boys.

ECONOMIC CONDITIONS.

During the month of July business reaction in basic lines of industry still was reflected in volume of business, extent of unemployment, and depression of production, according to the monthly review of general economic conditions issued on Monday from Washington by the Federal Reserve board.

Mid-summer retail business, the board asserted, has been in some respects better than usual, while the outlook for a satisfactory autumn business in several lines was declared to be decidedly encouraging. Continuing prospects of excellent good crops was considered the most hopeful feature in the general outlook.

BUILDING UP EXPORT TRADE

The government is pursuing several plans in building up export trade—permitting combinations for export sales, sending trade representatives to all the principal nations, and maintaining a merchant marine which will be an agency for the establishment of regular trade routes as well as extending the opportunity for shipment of American goods to markets not hitherto reached. Every dollar's worth of American goods shipped abroad means a dollar to be expended for the payment of American wages or the purchase of American raw materials.

THEY NEED THE EDUCATION.

"By all means," says the Biwabik Times, "let's have a convention of Southern Minnesota residents here in Northern Minnesota—not one but several of them. Nothing will quicker dispel the ingrown grouch developed by tonnage taxers and other calamity howlers and work for the betterment of the entire state." The Times evidently thinks they need the education.

More than 200 farms on government reclaimed land will be opened to entry by former service men next month. The farms are located on the North Platte irrigation project, Wyoming, and will be opened for entry Sept. 9, while 57 others on the Shoshone project will be opened one week later.

Last year the farmer was not materially assisted by his wheat sales as expected because of the high cost of production. This year it is different. As a rule the farmer is making a fair profit at the prevailing price and is either applying it to pay off debts or to build up a bank balance in event he is out of debt.

The Minnesota Farm Bureau Federation has begun a state-wide survey to determine the exact effect of present "economic conditions on the state's normal agricultural development. The various county agents throughout the state have been requested to gather the information desired.

There is a friendly race on between Minnesota postoffices and Michigan postoffices to determine which can sell the largest number of savings stamps and certificates per capita between August 1 and November 30. Past records give Minnesota the lead by a considerable margin.

A bill authorizing the payment of \$100 from the tribal funds to each of the Chippewa Indians in Northern Minnesota has been favorably reported to the House by the Indian Affairs committee. Under the bill 12,273 Indians would receive relief, making the total amount \$1,227,300.

Secretary of State Hughes, it is announced, has been designated by the president to head the American delegation at the disarmament conference, and to arrange all remaining

details of the meeting. Which will be very satisfactory indeed, to the American people.

Not one of the big powers that were allied in the world war—Great Britain, France, Italy and Japan—seems inclined to take any step that will be objectionable to your Uncle Samuel. And this country is not a member of the league of nations, nor is it likely to be.

State legislation converting more than \$375,000,000 to the aid of world war veterans has been passed or is waiting popular referendum, the Bank of America announced in New York at the conclusion of a nation-wide survey of the bonus situation.

All the news that is coming out of Washington these days in regard to the business of the government is constructive and re-assuring. Everybody with an open mind and a clear eye knows that the forces of order and progress are functioning.

It is said that W. J. Bryan is figuring on his chances in 1924. No objections to Mr. Bryan—or Mr. Wilson, or the inimitable "Jimmy" Cox for that matter—leading the Democratic party, the president will come from the Republicans.

There is but a small crumb of comfort in the announcement from Washington of a decrease of \$206,000,000 in the public debt during July. A balance of \$23,771,000,000 remained July 31.

Perhaps if the courts would compel the applicants for divorce to tell whom they expect or hope to marry—there might be some interesting disclosures, at least.

Paul H. Kirk, the state statistician at Fergus Falls, says the extreme heat and dry weather during July cut down the wheat crop prospects in Minnesota 22 points.

If Japan studies the immigrants who are coming over now, it's really no wonder she can't understand why her people are kept out.

We are firmly of the opinion that the best way to "elevate" the movies is to begin with the audiences.

The Lenin-Trotsky regime is again reported in desperate straits, but that seems to be its normal condition.

One of the free attractions will be the Reids, equilibrists, ball rollers and contortionists.

There will be horse racing, foot racing, horseshoe tournament, in which some of the best players in this vicinity will enter. A feature will be a doll parade by little girls.

COMMUNITY SING

And Musical Entertainment Given at Bay Lake, 200 Residents Take Part

Over two hundred Bay Lake residents gathered at the home of Mr. and Mrs. L. P. Hall on Sunday afternoon to enjoy a community sing and musical entertainment. The singing was led by Professor Nell, of Indiana University, Indianapolis, Ind., with Mrs. P. A. Gough of Bay Lake at the piano. The woods rang with the sweet familiar strains of "America," "Swanee River," Lov's Old Sweet Song, "America the Beautiful" and the "Star Spangled Banner."

Through the arrangement made by O. J. Bouma, secretary of the Brainerd Chamber of Commerce, Mr. Hall secured the Philippine Entertainers, the group of University of Minnesota students, who are putting on a show this week at the Brainerd Home Town Carnival, under the auspices of the Chamber of Commerce.

The Philippine Boys were introduced by Mrs. M. Frances Pierce, National Secretary of the Corda Fratres Association of Cosmopolitan Clubs, who is acting as their Director. They gave the following program:

Philippine Comradeship—Mariano S. Bambalan.

Song—"Philippine Sunshine." Medley.

Talk—"America and the Philippines." Celedonio R. Mmaglaya.

Violin Solo—"Adoration," Mariano S. Bambalan. Miss Florence Pierce, Accompanist.

Duet, Ukulele—Abelardo B. Runez, Mariano S. Bambalan.

Folk Song—"Pamoliniaoen."

Song—San Jose Under (the Cocoa nut Groves).

Instrumental Music—"Do You Ever Think of Me."

The spacious grounds on the shore of Bay Lake, with the beautiful white birch trees and decorations of American and Philippine flags and flowers made a most beautiful setting for the occasion. Ed. Miner, of Kansas City and Mr. Durland of Junction City, Kansas, took the party out to the lake, and Mr. Ziegler, Junction City, Kansas, and Mr. Rutger of Bay Lake, brought them back. The Philippine party was accompanied by Mr. Bouma and were the guests of Mr. and Mrs. L. P. Hall at a sumptuous fried chicken dinner after the program. The chicken and hot biscuits were served in true Maryland style.

MAHLUM LUMBER COMPANY ROBBED

Thieves Effect Entrance in Front of Office on Monday Night, Opening Vault Door

BLOW INNER COMPARTMENT

Stole \$56.35 in Currency, Missed Large Receipts Which Had Been Deposited

Forcing a front window of the office of the Mahlum Lumber company on Laurel street, thieves Monday night entered and opened the large vault door and blew the inner compartment of the safe within, stealing \$56.35 in currency and littering the floor of the vault with private papers and books they had ransacked in an effort to find more money.

Employees had deposited the day's heavy receipts on pay day, otherwise the robbers would have made a large haul. The work of entry showed the thieves to be most skillful. After trying to force a rear door, they resorted to the front window, pushed it up, broke the catch and gained entrance.

Police and county authorities are following all clues. No tools were left behind by the bandits.

The thieves were not at all particular on how they handled things. A big imprint of a hand is still visible on the window of the office. The rear door, in addition to carrying a lock, also had a bolt attached below and the latter withstood the efforts of the robbers to open the door. That method of ingress was abandoned and the thieves worked brazenly from the outside sidewalk.

The vault carries an electric light. Two small holes were drilled in the door of the inner compartment of the safe and it was opened with a small charge. Scattered pieces of steel lay about.

Files bearing the title "Private Papers" were ransacked, but so far no papers appear to be missing. The vault door was opened by damaging the knob and thus working towards the combination.

Some months ago the Brainerd Creamery Company safe at 913 Laurel street, less than half a block away, was blown. It was an odd incident, for the safe was never kept locked and the yegmen found nothing of value in the safe. Like the lumber company, the creamery company keeps receipts closely banked.

A movement is gaining ground in the city to have the banks receive late Saturday night and pay day night receipts of business houses for safe keeping.

IRONTON

Ironton, Minn., Aug. 15—During its first year of existence the Ironton public library accumulated 402 adults books, 182 children's books, being a total of 584. Cash balance on hand is \$412.14. The library directors are Thomas W. Beare, Mrs. O. C. Gorder, Mrs. G. W. Franson, Mrs. M. B. Ellingson, Mrs. H. L. Bratvold, Mrs. T. P. Mulvaney, Mrs. F. A. Allen, Mrs. A. H. Proctor, rs. H. M. Stetson.

The annual stockholders meeting of the Cuyuna Range Power Company will be held at the offices of the company at Ironton on September 1.

Five automobile loads of tourists camped at the Tourist park Wednesday. They came from Iowa.

The Norwegian Lutheran Ladies Aid will give a lawn social at the home of E. O. Wiggins on Crosby Beach Thursday afternoon and evening, August 18.

William Doust, one of the oldest settlers of the northern part of the county, died of old age. He was a veteran of the civil war and took part in nineteen battles. He had a homestead at Emily and later lived in Manganese. He is survived by his wife and eighteen children. Burial was at Emily.

Mr. and Mrs. Eugene Morissette and son David, of Fort Ripley, Mrs. Aurora Racine and Miss Flora Supranant of Winnipeg, Manitoba, were the guests of Mrs. Nellie Morissette this week.

The Range band gave a concert Tuesday evening at the ice cream social given by the ladies of the Presbyterian Aid.

The Mahomene mine has been reopened. On Wednesday a crew went to work with one shovel and hopes are entertained the mine will ship the balance of the season.

W. H. Locker of Duluth was in town last Friday.

The big power boat which belongs to a group of eight Ironton and Crosby sportsmen, was shipped to Boy River. The boat was formerly used as a passenger boat between Crosby and Deerwood. It has been entirely remodeled and fitted up with bunks and a galley. The owners will use it in their hunting and fishing trips on Leach Lake.

CHAMBER COMMERCE MEETS WEDNESDAY

Regular Semi-Monthly Meeting, Postponed from August 10, to Be Held August 17

THE LEGISLATIVE COMMITTEE

Will Make Report—Membership Pledge has Been Suggested to Stimulate Interest

The regular semi-monthly meeting of the Chamber of Commerce will be held Wednesday, August 17. This meeting was postponed from August 10 on account of the convention and carnival.

A report of the Legislative Committee on the Muscle Shoals proposition will be considered.

Opportunities for the growth and advancement of the city are continually presenting themselves and much constructive thought is needed in order that these opportunities may be taken advantage of.

The Advisory Board solicited at all times, not only from the members but from the citizenship at large, ideas that will make for a bigger and better Brainerd in which we live and work.

The following membership pledge has been suggested: "I will not criticize or condemn the Chamber of Commerce for failure to secure results unless I myself have given time, thought and diligent effort in helping to secure results." It is just what I make it."

Another matter that will be considered is the establishing of an open forum, the meetings to be held in the Chamber parlors.

DEERWOOD

Deerwood, Minn., Aug. 15—Mr. and Mrs. John Humphrey and Mr. and Mrs. Andrew Nystrom are visiting Arthur Nystrom in Grand Rapids.

CRULL BOUND OVER TO GRAND JURY

Tony Crull of Cuyuna, age 20, charged with carnal knowledge of a 13 year old girl, appeared in municipal court before Judge J. H. Warner and was bound over to the grand jury of the district court.

According to the story of the girl, she was seized from the buggy she was driving in the woods east of Cuyuna, gagged with a handkerchief and her hands tied with a belt. Crull when taken first denied the charge, but later, said Sheriff Theorin, made a confession. Crull had been seen in the vicinity of the crime by three children.

CROW WING COUNTY FAIR SEPT. 12, 13, 14

Capt. Homer J. Cole, Five Years a War Veteran, Will Fly at the County Fair

SEPTEMBER 13 IS BRAINERD DAY

One of the Free Attractions Will be the Reids, Famous Equilibrists of Cities

The premier feature at the Crow Wing County Fair in Pequot on September 12, 13 and 14, will be Capt. Homer J. Cole, a five year war veteran and one of the northwest's greatest stunt fliers. He will do his tricks in Capt. Billy Fawcett's Breezy Point airplane, looping the loop, tail spinning and other features.

Tuesday, September 13, has been designated "BRAINERD DAY". The Brainerd Municipal band will play and there will also be a baseball game between Brainerd and Pequot.

One of the free attractions will be the Reids, equilibrists, ball rollers and contortionists.

There will be horse racing, foot racing, horseshoe tournament, in which some of the best players in this vicinity will enter. A feature will be a doll parade by little girls.

COMMUNITY SING

And Musical Entertainment Given at Bay Lake, 200 Residents Take Part

Over two hundred Bay Lake residents gathered at the home of Mr. and Mrs. L. P. Hall on Sunday afternoon to enjoy a community sing and musical entertainment. The singing was led by Professor Nell, of Indiana University, Indianapolis, Ind., with Mrs. P. A. Gough of Bay Lake at the piano. The woods rang with the sweet familiar strains of "America," "Swanee River," Lov's Old Sweet Song," "America the Beautiful" and the "Star Spangled Banner."

Through the arrangement made by O. J. Bouma, secretary of the Brainerd Chamber of Commerce, Mr. Hall secured the Philippine Entertainers, the group of University of Minnesota students, who are putting on a show this week at the Brainerd Home Town Carnival, under the auspices of the Chamber of Commerce.

The Philippine Boys were introduced by Mrs. M. Frances Pierce, National Secretary of the Corda Fratres Association of Cosmopolitan Clubs, who is acting as their Director. They gave the following program:

Philippine Comradeship—Mariano S. Bambalan.

Song—"Philippine Sunshine."

Medley.

Talk—"America and the Philippines." Celedonio R. Mmaglaya.

Violin Solo—"Adoration," Mariano S. Bambalan. Miss Florence Pierce, Accompanist.

Duet, Ukulele—Abelardo B. Rumez. Mariano S. Bambalan.

Folk Song—"Pamolinaoan."

Song—"San Jose Under (the Cocoa nut Groves)."

Instrumental Music—"Do You Ever Think of Me."

The spacious grounds on the shore of Bay Lake, with the beautiful white birch trees and decorations of American and Philippine flags and flowers made a most beautiful setting for the occasion. Ed. Miner, of Kansas City and Mr. Darland of Junction City, Kansas, took the party out to the lake, and Mr. Ziegler, Junction City, Kansas, and Mr. Rutger of Bay Lake, brought them back. The Philippine party was accompanied by Mr. Bouma and were the guests of Mr. and Mrs. L. P. Hall at a sumptuous fried chicken dinner after the program. The chicken and hot biscuits were served in true Maryland style.

MAHLUM LUMBER COMPANY ROBBED

Thieves Effect Entrance in Front of Office on Monday Night, Opening Vault Door

BLOW INNER COMPARTMENT

Stole \$56.35 in Currency, Missed Large Receipts Which Had Been Deposited

Forcing a front window of the office of the Mahlum Lumber company on Laurel street, thieves Monday night entered and opened the large vault door and blew the inner compartment of the safe within, stealing \$56.35 in currency and littering the floor of the vault with private papers and books they had ransacked in an effort to find more money.

Employees had deposited the day's heavy receipts on pay day, otherwise the robbers would have made a large haul. The work of entry showed the thieves to be most skillful. After trying to force a rear door, they resorted to the front window, pushed it up, broke the catch and gained entrance.

Police and county authorities are following all clues. No tools were left behind by the bandits.

The thieves were not at all particular on how they handled things, a big imprint of a hand is still visible on the window of the office. The rear door, in addition to carrying a lock, also had a bolt attached below and the latter withstood the efforts of the robbers to open the door. That method of ingress was abandoned and the thieves worked brazenly from the outside sidewalk.

The vault carries an electric light. Two small holes were drilled in the door of the inner compartment of the safe and it was opened with a small charge. Scattered pieces of steel lay about.

Piles bearing the title "Private Papers" were ransacked, but so far no papers appear to be missing. The vault door was opened by damaging the knob and thus working towards the combination.

Some months ago the Brainerd Creamery Company safe at 913 Laurel street, less than half a block away, was blown. It was an odd incident, for the safe was never kept locked and the yeggmen found nothing of value in the safe. Like the lumber company, the creamery company keeps receipts closely banked.

A movement is gaining ground in the city to have the banks receive at Saturday night and pay day night receipts of business houses for safe keeping.

IRONTON

Ironton, Minn., Aug. 15—During its first year of existence the Ironton public library accumulated 402 adult books, 182 children's books, being a total of 584. Cash balance on hand is \$412.14. The library directors are Thomas W. Beare, Mrs. O. C. Gorder, Mrs. G. W. Franson, Mrs. M. B. Ellingson, Mrs. H. L. Bratvold, Mrs. T. P. Mulvaney, Mrs. F. A. Allen, Mrs. A. H. Proctor, rs. H. M. Stetson.

The annual stockholders meeting of the Cuyuna Range Power Company will be held at the offices of the company at Ironton on September 1.

Five automobile loads of tourists camped at the Tourist park Wednesday. They came from Iowa.

The Norwegian Lutheran Ladies Aid will give a lawn social at the home of B. O. Wiggins on Crosby Beach Thursday afternoon and evening, August 18.

William Doust, one of the oldest settlers of the northern part of the county, died of old age. He was a veteran of the civil war and took part in nineteen battles. He had a homestead at Emily and later lived in Manganese. He is survived by his wife and eighteen children. Burial was at Emily.

Mr. and Mrs. Eugene Morissette and son David, of Fort Ripley, Mrs. Aurora Racine and Miss Flora Suprant of Winnipeg, Manitoba, were the guests of Mrs. Nellie Morissette this week.

The Range band gave a concert Tuesday evening at the ice cream social given by the ladies of the Presbyterian Aid.

The Mahonmine mine has been reopened. On Wednesday a crew went to work with one shovel and hopes are entertained the mine will ship the balance of the season.

W. H. Locker of Duluth was in town last Friday.

The big power boat which belongs to a group of eight Ironton and Crosby sportsmen, was shipped to Boy River. The boat was formerly used as a passenger boat between Crosby and Deerwood. It has been entirely remodeled and fitted up with bunks and a galley. The owners will use it in their hunting and fishing trips on Leach Lake.

CHAMBER COMMERCE MEETS WEDNESDAY

Regular Semi-Monthly Meeting, Postponed from August 10, to Be Held August 17

THE LEGISLATIVE COMMITTEE

Will Make Report—Membership Pledge has Been Suggested to Stimulate Interest

The regular semi-monthly meeting of the Chamber of Commerce will be held Wednesday, August 17. This meeting was postponed from August 10 on account of the convention and carnival.

A report of the Legislative Committee on the Muscle Shoals proposition will be considered.

Opportunities for the growth and advancement of the city are continually presenting themselves and much constructive thought is needed in order that these opportunities may be taken advantage of.

The Advisory Board solicited at all times, not only from the members but from the citizenship at large, ideas that will make for a bigger and better Brainerd in which we live and work.

The following membership pledge has been suggested: "I will not criticize or condemn the Chamber of Commerce for failure to secure results unless I myself have given time, thought and diligent effort in helping to secure results. It is my Chamber of Commerce and it is just what I make it."

Another matter that will be considered is the establishing of an open forum, the meetings to be held in the Chamber parlors.

DEERWOOD

Deerwood, Minn., Aug. 15—Mr. and Mrs. John Humphrey and Mr. and Mrs. Andrew Nystrom are visiting Arthur Nystrom in Grand Rapids.

Mr. and Mrs. J. C. Pederson and children, who have been visiting the L. J. Alberts family, have returned home and on the way will visit at Fergus Falls, Minn., and Hankinson, N. D., the former home of Mr. Pederson.

Mr. and Mrs. F. L. Pitt have returned from a visit in Iowa.

J. M. Stowell of Minneapolis, engaged in newspaper work, is a guest at the home of his brother-in-law and sister, Mr. and Mrs. P. A. Gough.

Mrs. Hannah Hagberg, guest of Mrs. Anna Crone for a couple of weeks, has returned to her Brainerd.

Miss Jennie Erickson had her tonsils removed at a Crosby hospital.

Mrs. C. W. Potts and children and Mr. and Mrs. Peterson and sister of Crosby Beach left in their automobiles for a visit in Itasca park.

Will Pitts is packing his household goods and will move to Waterloo, Iowa, where he has bought a restaurant.

The Ladies Aid at the Bay Lake school house will give an ice cream social and sale on the afternoon and evening of August 18.

The Deerwood-Irondale Farm Bureau meeting was held Saturday noon at Carlson Brothers' farm west of Deerwood.

GIBSON SAYS HE HAS GOOD FIGHTING TEAM

Pirate Leader Thinks It Is Jinx to Make Predictions

Not Claiming Any Pennants, but Has Hope of Winning Out—Right Now It Looks Like Giants Are Ones They Have to Beat.

In discussing the chances of his team to win the National league pennant Manager George Gibson of the Pittsburgh Pirates said the other day that his players never knew when they were beaten.

"I've never won any pennants and I never make predictions. Think it's a jinx," Gibson continued. "I'm not claiming any pennant now. All we have is hope, and I think a good chance. If everything goes well with us maybe we'll be in there battling for the world's championship next October. I hope so."

"My ball club has been going mighty good. It's a good road club and it has been playing bang-up ball at home. If we can do as well on this trip East as we did the first time we ought to be pretty well fixed to hold our own. Of course, a lot depends on the pitchers. Our young pitchers, like Glazner and Yellowhorse, have been doing fine. The rest of the twirlers have done their share and 'Rabbit' Maranville has been a great help. But the pitching is all important. It'll have a big lot to do with whether we finally land."

"Looks like the Giants are the ones Pittsburgh will have to beat out," it was suggested to Gibson.

"Right now it looks that way," he replied; "but you can't tell. Look what the Braves did in 1914. And

Andalous, which won the Suburban and Carter handicaps, will be retired to the stud at the end of the season.

Willie Hoppe, world's champion billiardist, will play all future championship matches on a winner-take-all basis.

Edward Martin, for the last year graduate manager of athletics at Stanford university, has resigned to accept a business offer.

Great Britain will not be officially represented in the competition for the international golf team championship trophy September 5.

Charlie White, Chicago lightweight, who was suspended by the National Boxing association following the Wisconsin commission's complaint of his bout with Sailor Freedman, has been reinstated.

Indians Have Curious Numeration.
The Indians of Guiana have a curious system of numeration. They count by the hand and its four fingers. Thus, when they reach five, instead of saying so, they call it a "hand." Six is therefore a "hand and first finger"; seven, a "hand and second finger." Ten is "two hands." But 20, instead of being "four hands," is a "man." Forty is "two men," and thus they go on by twenties. Forty-six is expressed as "two men, a hand and first finger."

Insect Powder From Flowers.
Insect powder, which is made by grinding the flower heads of certain species of pyrethrum contains a volatile oil which acts upon insects by asphyxiation. It is harmless to the higher animals, including man. The workmen who make it suffer no more inconvenience than do millers or others engaged in dusty trades. The plants are fed to horses and other stock after the flowers have been gathered.

NORTHWEST NEWS

Rents Advance at Winnipeg

Winnipeg, Aug. 16—Rentals are being advanced in Winnipeg despite the fact that coal prices have slumped considerably.

The Tenants Protective association protested increases last year, and the reply was that coal and janitor service was costing more. Now both coal and janitor service has fallen off but rental increases are still in vogue.

The Tenants Protective association died a natural death from lack of public support, its president said. It has been dissolved.

Land Classification.

Bismarck, N. D., Aug. 16—Rules for the classification of lands for the purpose of taxation, which according to the new law effective July 1 must be done by county commissioners upon petition of not less than twenty per cent of the freeholders of the acreage property, have been issued by Tax Commissioner Wallace.

In valuing agricultural lands, the composition, nature and fertility of the soil will represent 70 per cent of the value; the topography 20 per cent, and proximity to market 10 per cent. In determining value of grazing land, soil productivity will represent 75 per cent of the value and accessibility to water 25 per cent.

More Consoling.

"Bless yer, ma'am," said the laundress, whose customer had brought back linen stained that ought to have been white. "Bless yer! You can't expect everything perfect here below. Why, if it was, there wouldn't be nuffin to look forward to in 'heaven!'"—London Answers.

Find Silica of Value.

Silica is claimed to have produced remarkable effects in many cases of arteriosclerosis. French physicians report that sodium silicate, applied by mouth or injections into veins, has brought some bedridden patients back to active life, and relieved others of headache and dizziness, and lessened their insomnia.

Tit for Tat.

When Lord Randolph Churchill visited the diamond fields of South Africa he is said to have exclaimed after looking at some diamonds: "And all for the vanity of women." A lady who heard the remark added: "And the depravity of men."

Fundamental Business Principles.

From a purely coldblooded business point of view, honesty is the best policy. To treat the other man as you would have him treat you is an equally fundamental business principle. This does not mean that you should surrender your rights or neglect to avail yourself of your opportunities. It simply means that in the game of business, the same rules of sportsmanship should prevail as in a boxing bout, in a match of golf, or in a football game.—John D. Rockefeller, Jr.

World's Gold Production.

In the world's history \$17,000,000,000 in gold has been mined, of which \$5,000,000,000 worth has been lost.—From the Argonaut.

"Here's Real Tobacco" says the Good Judge

That gives a man more genuine chewing satisfaction than he ever got out of the ordinary kind. Smaller chew, lasts longer—so it costs less to chew this class of tobacco.

And the good, rich tobacco taste gives a world of satisfaction.

Any man who uses the Real Tobacco Chew will tell you that.

What Is Your Daily Newspaper

A reporter of important events at home and abroad. It is that and more.

It is a directory of buying and selling.

It is the medium that brings together the man who has merchandise or a service, or anything else to sell—and the man who needs and wants these things.

By reading the advertisements in your newspaper you may find what you want with the least expense and in the least time.

And they may point out the fact that you needed many things the lack of which you never realized until you got them.

These benefits might never have been yours without the newspaper advertisement which first brought your need to your attention.

Read the advertisements in the newspapers regularly and thoroughly.

Manager George Gibson.

say, there's a ball club down in the second division that don't belong there. That's the Reds. They've beaten us six times, more than any other club. If Moran only had some pitching, he wouldn't be in seventh place.

"McGraw, of course, can generally be depended on to give everybody a battle. He has a good club, and as long as he has a good club he will be up there fighting."

Gibson added that the schedule suits him fine. The Pirates will practically finish the season playing a month at Forbes field, and if they are still leading the league at that stage of the race they will be as easy to stop as a runaway freight train in the Rocky mountains.

Sporting Squibs of All Kinds

Tennis certainly is a love game if they play it in this weather.

Be that as it may, there is one fight that Dempsey will never get credit for winning.

"Wrestlers," says a mat expert, "improve with age." While the wrestling game decomposes.

The cost of living may go down enough to make tickets for the next prize fight a trifle cheaper.

One of the modern tests of influence and prosperity is the ability to afford a ticket to a big prize fight.

A new athletic field and stadium will be constructed at West Virginia university in the near future.

GIBSON SAYS HE HAS GOOD FIGHTING TEAM

Pirate Leader Thinks It Is Jinx to Make Predictions.

Not Claiming Any Pennants, but Has Hope of Winning Out—Right Now It Looks Like Giants Are Ones They Have to Beat.

In discussing the chances of his team to win the National league pennant Manager George Gibson of the Pittsburgh Pirates said the other day that his players never knew when they were beaten.

"I've never won any pennants and I never make predictions. Think it's a jinx," Gibson continued. "I'm not claiming any pennant now. All we have is hope, and I think a good chance. If everything goes well with us maybe we'll be in there battling for the world's championship next October. I hope so."

"My ball club has been going mighty good. It's a good road club and it has been playing bang-up ball at home. If we can do as well on this trip East as we did the first time we ought to be pretty well fixed to hold our own. Of course, a lot depends on the pitchers. Our young pitchers, like Glazner and Yellowhorse, have been doing fine. The rest of the twirlers have done their share and 'Rabbit' Maranville has been a great help. But the pitching is all important. It'll have a big lot to do with whether we finally land."

"Looks like the Giants are the ones Pittsburgh will have to beat out," it was suggested to Gibson.

"Right now it looks that way," he replied; "but you can't tell. Look what the Braves did in 1914. And

Manager George Gibson.

say, there's a ball club down in the second division that don't belong there. That's the Reds. They've beaten us six times, more than any other club. If Moran only had some pitching, he wouldn't be in seventh place.

"McGraw, of course, can generally be depended on to give everybody a battle. He has a good club, and as long as he has a good club he will be up there fighting."

Gibson added that the schedule suits him fine. The Pirates will practically finish the season playing a month at Forbes field, and if they are still leading the league at that stage of the race they will be as easy to stop as a runaway freight train in the Rocky mountains.

Sporting Squibs of All Kinds

Tennis certainly is a love game if they play it in this weather.

Be that as it may, there is one fight that Dempsey will never get credit for winning.

"Wrestlers," says a nut expert, "improve with age." While the wrestling game decomposes.

The cost of living may go down enough to make tickets for the next prize fight a trifle cheaper.

One of the modern tests of influence and prosperity is the ability to afford a ticket to a big prize fight.

A new athletic field and stadium will be constructed at West Virginia university in the near future.

Audacious, which won the Suburban and Carter handicaps, will be retired to the stud at the end of the season.

Willie Hoppe, world's champion billiardist, will play all future championship matches on a winner-take-all basis.

Edward Martin, for the last year graduate manager of athletics at Stanford university, has resigned to accept a business offer.

Great Britain will not be officially represented in the competition for the International golf team championship trophy September 5.

Charlie White, Chicago lightweight, who was suspended by the National Boxing association following the Wisconsin commission's complaint of his bout with Sailor Freedman, has been reinstated.

Indians Have Curious Numeration.
The Indians of Guyana have a curious system of numeration. They count by the hand and its four fingers. Thus, when they reach five, instead of saying so, they call it a "hand." Six is therefore a "hand and first finger"; seven, a "hand and second finger." Ten is "two hands." But 20, instead of being "four hands," is a "man." Forty is "two men," and thus they go on by twelves. Forty-six is expressed as "two men, a hand and first finger."

Insect Powder From Flowers.
Insect powder, which is made by grinding the flower heads of certain species of pyrethrum contains a volatile oil which acts upon insects by asphyxiation. It is harmless to the higher animals, including man. The workmen who make it suffer no more inconvenience than do millers or others engaged in dusty trades. The plants are fed to horses and other stock after the flowers have been gathered.

NORTHWEST NEWS

Rents Advance at Winnipeg

Winnipeg, Aug. 16.—Rentals are being advanced in Winnipeg despite the fact that coal prices have slumped considerably.

The Tenants Protective association protested increases last year, and the reply was that coal and janitor service was costing more. Now both coal and janitor service has fallen off but rental increases are still in vogue.

The Tenants Protective association died a natural death from lack of public support, its president said. It has been dissolved.

Land Classification.

Bismarck, N. D., Aug. 16.—Rules for the classification of lands for the purpose of taxation, which according to the new law effective July 1 must be done by county commissioners upon petition of not less than twenty per cent of the freeholders of the acreage property, have been issued by Tax Commissioner Wallace.

In valuing agricultural lands, the composition, nature and fertility of the soil will represent 70 per cent of the value; the topography 20 per cent, and proximity to market 10 per cent.

In determining value of grazing land, soil productivity will represent 75 per cent of the value and accessibility to water 25 per cent.

More Consoling.

"Bless yer, ma'am," said the laundress, whose customer had brought back linen stained that ought to have been white. "Bless yer! You can't expect everything perfect here below. Why, if it was, there wouldn't be nothing to look forward to in 'heaven!'"—London Answers.

Find Silica of Value.
Silica is claimed to have produced remarkable effects in many cases of arteriosclerosis. French physicians report that sodium silicate, applied by mouth or injections into veins, has brought some bedridden patients back to active life, and relieved others of headache and dizziness, and lessened their insomnia.

Tit for Tat.

When Lord Randolph Churchill visited the diamond fields of South Africa he is said to have exclaimed after looking at some diamonds: "And all for the vanity of women." A lady who heard the remark added: "And the depravity of men."

Fundamental Business Principles.

From a purely coldblooded business point of view, honesty is the best policy. To treat the other man as you would have him treat you is an equally fundamental business principle. This does not mean that you should surrender your rights or neglect to avail yourself of your opportunities. It simply means that in the game of business, the same rules of sportsmanship should prevail as in a boxing bout, in a match of golf, or in a football game.—John D. Rockefeller, Jr.

World's Gold Production.

In the world's history \$17,000,000,000 in gold has been mined, of which \$5,000,000,000 worth has been lost.—From the Argonaut.

"Here's Real Tobacco" says the Good Judge

That gives a man more genuine chewing satisfaction than he ever got out of the ordinary kind.

Smaller chew, lasts longer—so it costs less to chew this class of tobacco.

And the good, rich tobacco taste gives a world of satisfaction.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

RIGHT CUT is a short-cut tobacco

What Is Your Daily Newspaper

A reporter of important events at home and abroad. It is that and more.

It is a directory of buying and selling.

It is the medium that brings together the man who has merchandise or a service, or anything else to sell—and the man who needs and wants these things.

By reading the advertisements in your newspaper you may find what you want with the least expense and in the least time.

And they may point out the fact that you needed many things the lack of which you never realized until you got them.

These benefits might never have been yours without the newspaper advertisement which first brought your need to your attention.

Read the advertisements in the newspapers regularly and thoroughly.
